

# 2008 Many Point North Country Trail Project

**July 10-13, 2007 near Many Point Scout Camp**  
**\$20 for food (9 meals)**

Troop 479 has an opportunity to help construct the North Country National Scenic Trail in northern Minnesota right by Many Point a few days before summer camp starts.

We will head north on July 10 around noon. We'll arrive around 3:30pm. We'll work on the trail on the 11<sup>th</sup> and 12<sup>th</sup> and do any final clean up on the 13<sup>th</sup>. We'll then head over to Many Point, meeting the rest of the troop there in the early afternoon.

This adventure is geared more towards scouts with at least a year under their belt. We'll learn to use axes, mattocks, pulaskis, and loppers. It's a great time for the troop leaders to work together on a significant project that will be around and used by thousands of people when they are old men.

The hours worked on this project can be counted for rank advancement or many different awards so you just need to choose which one you want to work on: Leave No Trace, Conservation Good Turn, Paul Bunyan, 50-Miler, National Camping, or National Honor Patrol. The food is GREAT, the water is clear, and you get a patch, too!

---

SCOUT \_\_\_\_\_ has my permission to help build the NCST on July 10-13. He is also attending Many Point on July 13-19.

- Take \$20 from his scout account. (probably less than it'll cost to feed him at home)
- I can transport \_\_\_\_\_ seatbelted scouts on this adventure and camp with the crew.
